UNIT 2 - BIM TECHNOLOGY (3RD EDITION)

A full-day course designed to provide a neutral introduction to BIM tools. Throughout the course, tools are introduced as they relate to the functions they perform, as well as particular phases in a project where they have the strongest capabilities. By understanding these differences, it is possible for each attendee to determine what questions need to be asked prior to making an investment in technology.

Course Learning Objectives

- Explain the phased structure of a BIM project.
- Describe the classes of BIM tools.
- List the common BIM applications.
- Describe how the use of BIM tools needs to be planned and organized.
- Explain the need to embed tools into the process.
- Develop a process for selecting relevant BIM tools.
