The General Contractors Association of Hawaii is proud to present:

PROJECT MANAGER DEVELOPMENT PROGRAM

The Associated General Contractors of America's Project Manager Development Program (PMDP) is designed for early-career project managers and those looking to move into such a role.

Professionals with less than two years of project-related experience in the commercial construction industry will benefit most from participating in this program. Experienced construction specialists who may be considering a career move into project management will also benefit by participating, as will individuals working in companies that have adopted a team-based management structure for their projects.

Module 2 | Contract Administration

Understand how basic contracts are structured, how different types of contracts are used, and how project documentation relates to effective contracting. Learn how different project delivery methods use different contracting strategies, and gain insight into contract law and language in relation to project risk.

- Introduction to Construction Law and Project Contracting
- Contract Basics
- Negotiating Fair Contracts
- Documents
- Payment Terms
- Legal Issues
- Contracting With Others for Required Work
- Contract Termination

Program Completion Certificate

Upon completion of each individual module, participants will receive a course certificate. Participants who complete all five courses need to submit a PMDP application to AGC of America in order to receive the AGC PMDP Certificate of Completion. All who complete the full program will be honored at a GCA Membership Meeting where their commitment and accomplishment will be recognized by the industry.
